

Rochester Community School Corporation

Rochester, Indiana

OPERATIONAL LETTER

ACCEPTABLE USE OF INTERNET AND NETWORK RESOURCES

Applicable to: All District Employees and Students

To: All District Employees

From: Daniel Ronk, Superintendent

Subject: Acceptable use of Internet and Network Resources

Purpose

Internet access, electronic mail (e-mail) and network resources are available to teachers, administrators, and students in the Rochester School Corporation solely for educational and instructional purposes and other purposes consistent with the educational mission of the school district. Use of the Internet, e-mail and district network is a privilege.

With Internet and e-mail access comes the availability of material that may not be considered appropriate in a school setting. The district cannot regulate and monitor all the information received or sent by persons who use the Internet or e-mail; and the district cannot ensure that students who use the network, Internet or e-mail will be prevented from accessing inappropriate materials or sending or receiving objectionable communications. The district believes, however, that the availability and value of the Internet and e-mail far outweigh the possibility that users may procure inappropriate or offensive material.

Authority

The district reserves the right to log, monitor, and review Internet, e-mail, and other network use of each user. This logging, monitoring, and review may be conducted without cause and without notice. Each user of a district computer, by the use thereof, agrees and consents to such logging, monitoring, and review and acknowledges that s/he has no right or expectation of confidentiality or privacy with respect to Internet, e-mail or other network usage.

Network administrators may review student and staff files and communications to maintain system integrity and ensure that students and staff are using the system only for appropriate purposes. Users should expect that files stored on district servers or computers will not be private. An e-mail archiving system is utilized in the district.

The district employs the use of an Internet filter as a technology protection measure pursuant to the Children's Internet Protection Act. The filter may not be disabled for use by students or other minors for any reason.

All students, administrators, and staff members who use the Internet, e-mail, and other network facilities must agree to and abide by all conditions of the policy. Students may not use the district's computers for access to the Internet or for e-mail without the approval or supervision of a teacher or school district staff member.

The district makes no warranties of any kind, whether express or implied, for the service it is providing. The district is not responsible, and will not be responsible, for any damages, including loss of data resulting from delays, nondeliveries, missed deliveries, or service interruption. Use of any information obtained through the use of the district network is at the user's risk. The district disclaims responsibility for the accuracy or quality of information obtained through the Internet or e-mail.

The district assumes no responsibility or liability for any charges incurred by a user. Under normal operating procedures, there will be no cost incurred.

Subscriptions to listservs must be preapproved by the district. A student may not download or install any commercial software, shareware, or freeware onto local and/or network drives or disks, unless s/he has the specific, prior written permission from a teacher or administrator.

Guidelines

General Prohibitions

Use of the Internet, e-mail, and network must be in support of the educational mission and instructional program of the district. With respect to all users, the following are expressly prohibited:

1. Use for inappropriate or illegal purposes.
2. Use in an illegal manner or to facilitate illegal activity.
3. Use for commercial, private advertisement, or for-profit purposes.
4. Use for lobbying or political purposes.
5. Use to infiltrate or interfere with a computer system and/or damage to data, files, operations, software or hardware components of a computer or system.
6. Hate mail, harassment, discriminatory remarks, threatening statements and other antisocial communications on the network.
7. The illegal installation, distribution, reproduction or use of copyrighted software.
8. Use to access, view or obtain material that is obscene, pornographic, including child pornography, or harmful to minors.
9. Use to transmit material likely to be offensive or objectionable to recipients.
10. Use to obtain, copy or modify files, passwords, data or information belonging to other users.
11. Use to misrepresent other users on the network.
12. Use of another person's e-mail address, user account or password.
13. Loading or use of unauthorized games, programs, files, music or other electronic media.
14. Use to disrupt the work of other persons. Hardware or software of other persons shall not be

destroyed, modified or abused in any way.

15. Use to upload, create or attempt to create a computer virus.
16. The unauthorized disclosure, use or dissemination of personal information regarding minors.
17. Bullying/Cyberbullying.
18. Use which involves any copyright violation.
19. Use to invade the privacy of other persons.
20. Posting anonymous messages.
21. Use to read, delete, copy or modify the e-mail or files of other users or deliberately interfering with the ability of other users to send or receive e-mail.
22. Use while access privileges are suspended or revoked.
23. Any attempt to circumvent or disable the filter or any security measure.
24. Use inconsistent with network etiquette and other generally accepted etiquette.

Student Prohibitions

Student users and any other minors shall not:

1. Use the system to access inappropriate or obscene materials or materials that may be harmful to minors.
2. Disclose, use or disseminate any personal identification information of themselves or other students.
3. Engage in or access chat rooms or instant messaging without the permission and direct supervision of a teacher or administrator.

Etiquette

Users are expected to abide by the generally accepted rules of network etiquette. These include but are not limited to the following:

1. Be polite. Do not become abusive in messages to others. General district rules and Board policies for behavior and communicating apply.
2. Use appropriate language. Do not swear or use vulgarities or other inappropriate language.
3. Do not reveal the personal addresses or telephone numbers of others.
4. Recognize that e-mail is not private or confidential.
5. Do not use the Internet or e-mail in any way that would interfere with or disrupt its use by other users.
6. Consider all communications and information accessible via the Internet to be private property.
7. Do not order any materials or use credit cards while using the district network.
8. Respect the rights of other users to an open and hospitable technology environment, regardless of race, sexual orientation, color, religion, creed, ethnicity, age, marital status or handicap status.

Proper Use and Care

Equipment abuses are unacceptable whether out of frustration, misuse, negligence or carelessness. Users are responsible for damage to or loss of District equipment. District vandalism policies apply, making users liable for intentionally inflicted damage.

Guidelines for the care and use of computer software are similar to hardware policies. Users are responsible for damage to or loss of District software systems. District vandalism policies apply to software as well, making users liable for intentionally inflicted damage.

Users shall not install or modify applications without approval and support of the District Technology Department or designated Technology teachers and support staff at school sites. Any unauthorized changes to systems, operating software, application software or hardware configurations will be reversed when discovered by technology department or instructional staff. File sharing software cannot be installed or used on district computers for the purpose of illegally sharing copyrighted materials such as music, images and software.

In order to ensure proper configuration and to safeguard network security and performance, users should not attach computers, printers, network equipment (including wireless access points) or other types of hardware to the District's network without prior approval and support of the technology department. Any equipment found to be in violation of this policy will be immediately disconnected.

Security

Security on any network system is a high priority especially when the system involves many users. Each user is required to report any security problems to the system administrator. The problem is not to be demonstrated to other users.

System security is protected through the use of passwords. Failure to adequately protect or update passwords could result in unauthorized access to personal or district files. To protect the integrity of the system, the following guidelines shall be followed:

1. Employees and students shall not reveal their passwords to another individual.
2. Users are not to use a computer that has been logged in under another student's or employee's name.
3. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the network.
4. Consequences of Inappropriate Use

The user, whether a student or employee, shall be responsible for damages to equipment, systems or software resulting from deliberate or willful acts. In addition to other appropriate disciplinary procedures, failure by any user to follow the procedures, and prohibitions listed in this policy may result in the loss of

access to the network, Internet and e-mail. Illegal activities or use may be reported to the appropriate legal authorities for possible prosecution. The district reserves the right to remove a user from the network to prevent unauthorized or illegal activity.

Acceptable Use Policy Sign-off Form on Next Page

ACCEPTABLE USE OF INTERNET AND NETWORK RESOURCES

Signature Page

The use of the Internet and e-mail is a privilege, not a right. District administrative staff, along with the system administrator, will deem what is appropriate and inappropriate use and their decision is final.

Employee/Student Acknowledgement

I have received, read and accept the guidelines in the Superintendent's Operational Letter on the Acceptable Use Internet and Network Resources.
